

Pre-Detail Photo Checklist

Snap these before you book your interior detail. We use them to lock your exact price up front — so there are no day-of surprises in the driveway.

- Front seats**
From the open driver's door — both front seats and the floor mats in frame.
- Back row**
From an open rear door — the full back row plus the rear floor.
- Trunk / cargo area**
From the lifted hatch or tailgate — show the floor and the side panels.
- Any problem areas**
Close-ups of what worries you: a stain, pet hair, smoke residue, a spill, an odor source.
- Optional: the worst-looking spot**
Dashboard, console, cup holders, or a stained headliner — anything you want us to see.

A FEW QUICK TIPS

- Phone quality is perfect — we're not judging photo skill.
- Shoot in daylight or bright cabin light so we can see the real condition.
- Get close on problem spots — detail beats distance.
- 4-6 photos is plenty. Send what you can; we'll ask if we need more.

What happens after you send them

Upload your photos in our booking widget and pick a time. We review within 24 hours (usually much sooner) and either confirm your price or send an adjusted estimate if the photos show conditions that change it. You see the final number before you confirm — and you can cancel free if it doesn't work for you.
